BSSS Institute of Advanced Studies

(Approved by AICTE, MoE, GoI & Affiliated to Barkatullah University)

About BSSS IAS

The BSSS Institute of Advanced Studies (BSSS IAS), an AICTE-approved institution, is engaged in education, research, training, and consultancy activities in the areas of management, sustainable development, rural development, social sciences, etc. It strives to provide a comprehensive platform for growth and empower individuals to thrive in their respective fields. It is one of the best professional management institutions engaged in multidisciplinary activities. It has collaborated with Assumption University, Thailand, and Synergy University, Russia, for joint research, training, and management education. The Institute envisions emerging as a top Professional Management Institution in Central India by playing a pivotal role in professional management education in the coming years and adorning a path with an undivided focus on quality education and excellence, thereby placing itself as an institution of national and international importance. Its excellent infrastructure provides an environment conducive to academic activities, professional deliberations, and social interactions.

BSSS IAS has a strong portfolio of multidisciplinary faculties, experience in national and international consultations and the best training Institute in Central India. As part of the Executive Training programme, we have proposed many Management Development Programmes focused on increasing managerial business skills and leadership capabilities of managers who aspire to be among the top leaders in their organisations. BSSS IAS is organising a series of training programmes for corporates and also for govt. employees.

INTERNATIONAL COLLABORATIONS

BSSS- IAS regularly participates in various national and international level activities like conferences and symposia. The institute has signed MoU with Assumption University, Thailand for initiating an executive-level MS in management and Synergy University, Moscow for initiating the PGP programme. It is the official training partner of the National Skill Development Council, India and has signed MoU with IEHE, Bhopal for academic collaboration.

CAMPUS

The Institute has a sprawling lush green campus located in the Central place of Bhopal city. The building complex includes the Academic-Complex, Library, Computer Centre, Hostel, Fully Air-Conditioned Cafeteria, Administration and Accounts wings. The Academic Complex includes fully air-conditioned hi-tech classrooms, Seminar Halls equipped with video conferencing facilities and a Faculty Block. This world-class infrastructure provides an environment conducive to academic activities, professional deliberations and social interactions. The multidisciplinary faculty with multidisciplinary subjects BSSS IAS has a strong portfolio of national and international consultations and the best training Institute in Central India.

The Rationale of The MDP

Quality education is a key factor for improving the whole education ecosystem that will ensure the development of a synergistic relationship with all the stakeholders with a key focus on strategies that emphasise continuous improvement by self-evaluation hence developing a system with a great axiom of leadership. The quality management process in educational institutes generally is based upon a prodigious mission and passion, where administrators usually act as role model who ensures that the organizations excel ahead irrespective of the various environmental factors, as they focus and believe in the ethical administration, accountability, humans relation, monitoring and progressive evaluation through systematic feedback. Implementation principles and processes of the concept for maintaining quality in education need to be identified and benchmarks need to be developed by identifying the barriers to implementing total quality in education.

Quality assurance in the education system is important in light of NEP as well as various mandatory regulations related to the accreditations of educational institutions structured by various governing bodies of MoE like UGC, AICTE, and CBSE. Quality assurance practices in educational institutions will not only help to achieve excellence but also can guarantee the survival of institutions in a highly competitive world. The focus of the programme is on creating effective leadership for managing the organisation and strategy for monitoring and enhancing employee performance and creating highly sustainable business models to understand the present-day challenges and future practices of organizational development. This programme thus offers tools and concepts and practical solutions that management needs to analyse, discuss practical cases and synthesize with modern concepts of organizational development.

The objective of the MDP

1. To create effective leadership for managing the organisation strategically.
2. To understand the present-day challenges and future practices of organizational development.
3. To understand tools and concepts and practical solutions to manage management problems.
4. To augment People Management skills and carve administrators.
5. To set a platform to focus on outcome-based education.
6. Developing knowledge related to academic monitoring and evaluation.
7. To understand the need for documentation for accreditations.
8. To decipher various laws and rules as applicable to educational institutions
